

# Restoration Services

**Matrix Construction Services** provides comprehensive restoration and reconstruction solutions for multifamily properties following major disaster events. Our restoration work focuses on stabilizing affected areas, remediating damage, coordinating scopes where insurance is involved, and rebuilding spaces to return properties to safe, functional condition.

## WE OFFER THE FOLLOWING RESTORATION SERVICES:

### Damage Restoration & Reconstruction

We restore and reconstruct damaged areas affected by fire, water, smoke, or structural events, returning properties to safe, livable condition with quality workmanship.

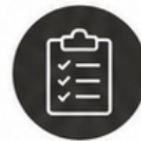

### Mitigation & Remediation Services

We mitigate further damage and remediate hazardous conditions including water extraction, mold remediation, dehumidification, and air quality solutions.

### Emergency Response Services

We respond quickly to minimize damage, stabilize affected areas, and begin the restoration process with speed and efficiency.

### Insurance Support

We work directly with insurance providers, handling documentation, photos, estimates, and communication to help streamline the claims process.
