

Exterior Renovation Services

Matrix Construction Services provides exterior renovation solutions for multifamily properties that require coordinated exterior work across buildings, elevations, and shared spaces. Our exterior renovation projects focus on improving building condition, addressing structural and surface concerns, and restoring exterior systems impacted by age, exposure, or wear. Whether supporting targeted improvements or broader renovation efforts, we work alongside property teams to deliver consistent execution that protects building integrity, supports resident safety, and contributes to long-term asset performance.

WE OFFER THE FOLLOWING EXTERIOR RENOVATION SERVICES:

Structural Repairs

We repair and reinforce structural components to address damage, extend building life, and ensure long-term integrity.

Concrete & Asphalt

We restore and resurface concrete and asphalt surfaces for safety, durability, and enhanced curb appeal.

Enclosures

We repair and replace enclosures including siding, railings, fences, and gates to improve safety, privacy, and appearance.

Lighting

We upgrade and install exterior lighting systems to improve visibility, safety, and energy efficiency.

Signage

We design, repair, and install signage solutions that enhance branding and property visibility.

Specialty Services

We provide customized exterior solutions including waterproofing, coatings, sealants, and more to protect and enhance your property.
