

Life Safety & Compliance Services

Matrix Construction Services provides life safety and compliance solutions that help multifamily properties meet required standards while protecting residents and preserving asset value. From structural corrections to regulatory compliance, our team delivers clearly defined scopes and coordinated execution across occupied communities.

WE OFFER THE FOLLOWING LIFE SAFETY & COMPLIANCE SERVICES:

ADA Compliance

We assess, correct, and upgrade common areas and units to meet ADA requirements and ensure accessibility for all residents and guests.

City Inspections

We coordinate and complete required city inspections, permits, and approvals to help keep your property in good standing.

Code Compliance

We identify and resolve code violations to ensure your property meets local, state, and federal life safety standards.

HOA Violations

We address and resolve HOA violations efficiently to help protect your reputation and avoid fines or restrictions.

Rebuilds & Structural Repairs

We provide structural assessments and rebuild solutions that restore safety, stability, and long-term durability.

General Life and Safety

We handle life safety upgrades including handrails, egress, fire safety, and more to keep your property and residents safe and secure.
